*DELICIOUS
DETAILS.*

Perlick®

FINALLY, COMMERCIAL-GRADE

*PERFORMANCE
MEETS
HIGH STYLE.*

There's no shortage of gimmicks in the kitchen. But Silicon Valley tech doesn't keep greens crisper longer. Or a caviar berry from bursting. For that, you need Perlick performance.

Now is the time to have it all—the commercial-grade performance high-end restaurants demand and the high style luxury homeowners deserve. Discover why delicious is truly in the details with Perlick.

BECAUSE KITCHENS SHOULD BE DELICIOUS, TOO.

THE ONLY REFRIGERATOR WITH
PRECISION COOLING IN

FOUR SEPARATE ZONES.

(BECAUSE A
FINE CHEESE
AND ORGANIC
GREENS CAN'T
AGREE ON
ANYTHING.)

24" COLUMN REFRIGERATOR

For too long, "high-end" refrigerators have featured inferior design and engineering. All-acrylic interiors. Benign plastic sliders for "controlling" humidity. It's time for genuine quality and performance, with Perlick. Our refrigerator boasts an all stainless-steel-and-glass interior, real moisture control for produce and four separate zones of cooling, keeping food safer and fresher, for longer. But the beauty isn't all on the inside; it's also wrapped in a stylish design.

FOUR ZONES OF PRECISION COOLING

Only Perlick offers four, independently controlled temperature zones. Each zone maintains temperature within 1° of setpoint, with smart settings for deli, meat/fish, produce and beverages. Storing fresh ingredients at their ideal temperatures keeps them at their most delicious.

REAL HUMIDITY / DUAL CHAMBER AIR FILTRATION

Our tip-out produce bin features proven food preservation technology that keeps greens fresher and crisper, longer. With advanced electronic monitoring of humidity levels, the intelligence to add real moisture back into the compartment, and filtration that removes gases emitted by some fruits and vegetables, it prevents premature wilt.

COMMERCIAL-GRADE DESIGN & CONSTRUCTION

A stainless steel and glass interior results in a non-porous, easy-to-clean and elegant-looking appliance. No plastic.

LUXURY CARS AREN'T MADE OF

PLASTIC.

THE SAME
SHOULD
GO FOR
FREEZERS.

24" COLUMN FREEZER

Enough with the all-acrylic interiors and the unintuitive design. It's time for a Perlick. With a commercial-grade, stainless-steel interior, full-extension open drawer bins and vibrant LED lighting, your artisan gelato will never look more tantalizing—or be easier to find. Pair with the 24" column refrigerator for the ultimate fresh and frozen food preservation system.

BLACK STAINLESS STEEL & LED LIGHTING

Slate-black and brushed-stainless-steel interiors create a dramatic backdrop. That, combined with vibrant, LED theatre lighting, displays each product in stunning fashion.

PERLICK PERFORMANCE

Quiet, powerful, frost-free cooling that has made us the choice of fine venues for more than 100 years.

THE ONLY THING

MORE PARTICULAR

THAN A WINE
CONNOISSEUR
IS THE WINE
ITSELF.

24" COLUMN SINGLE- AND DUAL-ZONE WINE RESERVES

Wood is beautiful, but it can also affect moisture and air quality in a wine reserve—which is why you won't find it in a Perlick. Instead, we feature vibration-resistant soft-coat glide out shelves and advanced humidity, air filtration and temperature control. Nothing protects, preserves and presents a treasured wine collection like a Perlick.

VIBRANT LED THEATRE LIGHTING

Vibrant blue or white LED roll-on theatre lighting adjusts for display or storage, and emits no UV light to protect against oxidation and degradation.

TRIPLE-PANE TINTED GLASS

Bronze-tinted, UV-resistant glass is LowE- and argon-filled, protecting from light exposure which can cause oxidation in wine and degrade it over time.

HUMIDITY CONTROL

Advanced technology monitors humidity levels in the reserve, and if necessary, pushes additional moisture into the compartment to maintain 60-70% humidity. This preserves corks and prevents oxidation.

OTHER FEATURES AND DESIGN SPECIFICATIONS

OVERALL COLUMN FEATURES

VIBRANT LED THEATRE LIGHTING

Vibrant LED theatre lighting brings out the rich colors of foods stored in our refrigerator and freezer, and adjusts for display or storage in our wine reserves.

TOUCH-SCREEN CONTROL PANEL

A sleek, black design disappears into the backdrop until it's awoken with a touch. Customize temperature preferences in 1° increments and activate Sabbath mode. Additionally, the refrigerator control provides access to smart temperature settings for deli items, meat/fish and fresh produce, and wine reserves include settings for red, white and cellar temperatures.

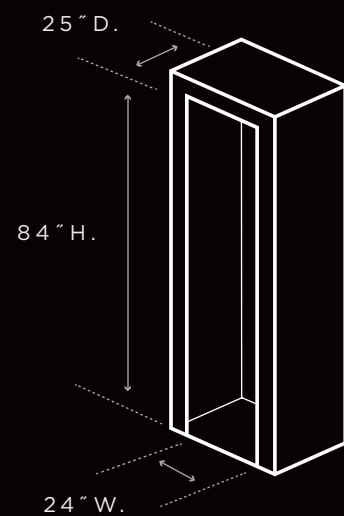

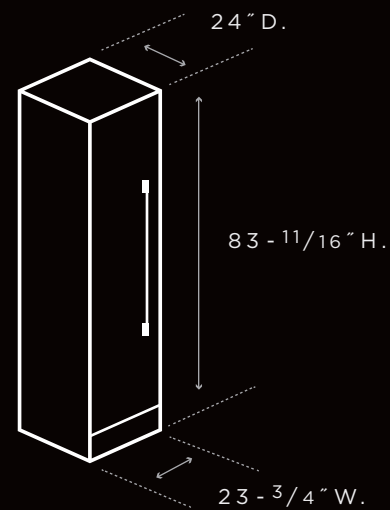

DESIGN FLEXIBILITY

Perlick column refrigeration comes ready to accept a custom panel and handle to match surrounding cabinetry.

ECO-FRIENDLY

Perlick columns use a non-toxic refrigerant that is 20% more efficient than standard refrigerants, and has been shown to have zero ozone depletion potential and very low global warming potential.

APPLIANCE DIMENSIONS

CUTOUT DIMENSIONS

ACCESSORIES

All Perlick columns are available with dual installation kits, stainless-steel exterior side finishing panels and stainless-steel door panels with a Perlick Pro Handle.

WE STAND BEHIND OUR PRODUCTS

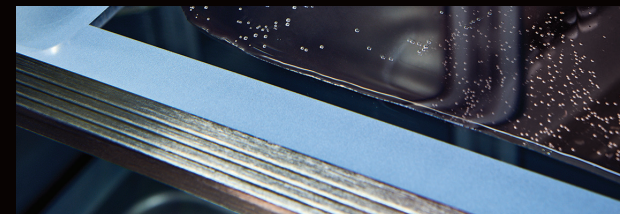

Perlick column refrigeration is backed by a rigorous Three-Full-Year Warranty.

24" COLUMN REFRIGERATOR

SPILL-PROOF GLASS SHELVING

An invisible hydrophobic barrier contains spills.

SLIDE-IN MARINATING PAN

Provides space for marinating, storing pre-made appetizers or for sous-vide packets.

24" COLUMN FREEZER

FULL-EXTENSION OPEN DRAWER BINS

Have quick access to frozen goods and see stored products at a glance in an open-concept design.

24" COLUMN SINGLE- AND DUAL-ZONE WINE RESERVES

SOFT-COAT GLIDE OUT SHELVING

Eliminates vibration which can disturb sediment and alter the flavor of wine.

CONVERTIBLE DISPLAY SHELF

Display six prized bottles of wine, with additional storage for four dessert bottles. Or lay the display shelf flat for long-term cellaring and increased storage capacity for 11 bottles.

BOTTLE CAPACITY

Single-zone wine reserves accommodate 94 bottles (750 ml) and dual-zone reserves store 86 bottles.
